Dakota Boys and Girls Ranch  
and  
Dakota Boys and Girls Ranch Foundation  
Annual Reports 2011

## President's Report Gene D. Kaseman

We ended this fiscal year in a rather unusual way--with an historic flood. The Ranch actually went through two floods. The first was the flood forecast given in the later part of May, where the River was to crest at 1,554 feet. There was a mandatory evacuation for many areas of Minot, none which affected the Ranch. However, we did take the opportunity to raise our existing dikes from a large stock pile of clay located by the facilities on the North side of the road, County 15. The clay was taken from the site development and drainage plans of the new horse arena.

The Ranch weathered that flood in good order and we felt the worst was over.

The second flood warning came on June 19 and it was evident that it would be historic and probably catastrophic in nature. Many of our employees had just moved back into their home after the first flood warning and now they were moving out again.

During this three-day window before the forecasted flood, we evacuated all the residents and necessary staff to the Bismarck and Fargo facilities. We then proceeded to raise the dikes twice and add 800 feet of temporary water bladder dikes. This was done while basically ignoring the evacuation mandate orders to leave the campus. Later, we did receive formal permission to continue work, based upon what appeared to be a high degree of success that our dikes would hold.

Fortunately, our dikes and levees held while the housing developments directly adjacent to the Ranch on the west side were completely inundated, as well as houses south and east of the Ranch.

Not only was the Souris river to the south of the Ranch a threat, but levee breaks upstream had river water flowing from the north, into the backside of the dikes meant to hold the river back. This flow of water, which was about three quarters of a mile wide and two feet deep, literally missed the Ranch by 150 feet to the west! If it had flowed another 150 feet to the east, the Ranch would have been totally flooded.

The physical damage to the Minot campus related to high water table damage to the very lower basements of the four cottages and Bremer Hall. Some of the cottages also had sewer damage because plugs or fittings gave way due to sewer pressure. These issues were addressed so our residents could return to campus in late August.

The Ranch did not receive any overland flooding from the river, nor to the south, west or north side. If it had, and based on elevations taken prior to the flood, all of the four cottages would have had their lower areas flooded, the basement and about one foot of the main floor of Bremer Hall would have been flooded, as well as the main floor of Cornelson cottage. The Family Living Unit, grounds shop, vocational shop and thrift

store warehouse also would have had flood damage. The damage would have easily approached a couple million dollars.

However, the Minot Community Youth Home, located about three blocks south of Minot State University was completely destroyed by the flood. The building has been demolished and cleared from its present site, and the Youth Home is currently operating out of Seegers Cottage.

The following are some bullet points concerning the flood related issues:

- A. There was no gas, sewer or water on the campus until late-August, at which time residents and staff moved back. Minot residents had been away from campus for two months.
- B. There was no flood insurance for the Minot Campus or Minot Community Youth home, as neither were considered to be in the flood plain.
- C. The business office applied to the various flood disaster relief programs that are available. We have received some assistance through FEMA and are waiting for more answers.
- E. Financial repercussions from this event have included a loss of revenue from tuition payments and fees for services, and increased staff expenses and needed repairs.

We are addressing all these issues on a daily basis, but I am encouraged by the outpouring of support from our donors who gave us more than \$200,000, specifically toward flood costs in June and July.

The flooding has created many issues that are affecting the overall agency, to include the Association, Foundation and Dakota Family Services. This is a situation that will continue to be managed in the upcoming months. My best estimate is that the operations will not return to some degree of normalcy until March or April of 2012.

As changes go, we also have welcomed several new staff at Dakota Memorial School: Mr. Bob Briggs, Superintendent, and Mr. Ralph Charley, Director of the Souris Valley Special Education Unit, as Program Director.

Construction continues on the DBGR, Red River Valley residential center and school in Fargo, N.D. with a final completion date set in January 2012. Shortly after that we will move 16 of our young residents into their new home! We hope you can join us for a Home Tour there or at any of our program facilities across the state.

So many changes, so many blessings, may God bless your day as well,

*Gene D. Kaseman*

## Chairman's Report, Program Maxine Beckwith

Greetings and God's Blessing on behalf of the Program Board for Dakota Boys and Girls Ranch. Serving on this Board is truly a blessing and a very rewarding experience as we work to help at-risk children and their families succeed in the name of Christ.

During this past year we have served a total of 235 boys and 164 girls at the three facilities. In addition Dakota Family Services, a mental-health outreach mission based in Minot, served an additional 740 people. Our utilization has been excellent! We have truly been blessed with great programming to make a difference in the lives of the residents and their families.

As you know, our programming is different from many residential treatment centers because we include a spiritual element. This past year there were 55 Chapel services and other Spiritual Life groups, which included residents assisting with worship with praise band and special music. Doesn't that just warm your heart?

The end of this past year has been challenging for administration, staff and the children and families we serve. Flooding has been an issue in all three communities where we have campuses. Fargo's flood was short term but Bismarck and Minot are a different story. You see, it isn't just the children that are affected, but also the staff who are committed to helping them.

It was the very end of May when Gene Kaseman called me about the upcoming Board meeting in June. The conversation indicated that he and other staff were needed in Minot because many of the workers had personal flooding issues. With that in mind, we cancelled the June meeting. Nothing was as pressing as the issues in Minot! Little did we know that it would only become worse. All in all, we had 40 employees with flooded homes; five had seepage only and 18 were displaced. The Ranch itself did not have direct flooding, but has had major seepage damage.

It takes great staff to arrange to move all residents in our care at Minot to Bismarck and Fargo. Licensure had to be cleared with the North Dakota Department of Human Services, buildings had to be rearranged to care for these additional residents, some staff relocated to Fargo (staying in motels) and the staff relocating to Bismarck commuted daily to care for the residents. All in all, it worked out and we are happy to see them and staff back on the Minot campus.

Imagine the emotional turmoil in some individuals when their place of employment has flood issues, their home is under water and they are displaced, and they don't know what the next day brings. The good news is that our employees know that they have Jesus Christ who has not forgotten them and is with them every step of the way.

This staff is the greatest! I can't say enough about the administration and departmental supervisors. Gene, Jane, Sheila, and Amanda are working hard to keep on top of things. Darrell, as buildings and grounds supervisor, is so committed. He has such a passion for Dakota Boys and Girls Ranch. Thank you, Darrell! God's blessings to you and all of the employees.

A special committee has been formed to work with the administration during this crucial time. There are three members from the Program Board and three members from the Foundation Board. We have met in Minot twice. It is heart-rendering to see the devastation of the town. But it is heart-warming to see how people did everything to save their property. The dikes, the levees, the moving of belongings to higher ground, the endless hours spent checking sump pumps, and the reaching out to others are things I observed when touring the campus facilities and driving through the city. Employees came in to see if they could help – even though their own property was in jeopardy of flooding. Our employees are a selfless group of people who focused first on the safety of the residents and then on what could be done to protect the place they love – Dakota Boys and Girls Ranch.

The next six months will be challenging. Many repairs were done that enabled the residents to return to the Minot campus at the end of August, just in time to start school. A future challenge will be to keep utilization numbers up so that our funding is secure.

Please continue to pray for all our campuses. In Fargo we are constructing the new facility that faced issues with rain on an almost daily basis during the summer months. Construction on the Greenhouse has started in Bismarck, and Minot is slowly but surely getting back to a routine again.

We need prayer and financial support! Our donors are a wonderful, supportive group. My thanks to them for all they have done for the Ranch. May God bless each and every one of you.

*Maxine Beckwith, Chairman*

*Fast Fact 2010-11 Fiscal Year*

2011 marks the 59th year of Dakota Boys and Girls Ranch service to children and families.

# Mission

We help at risk children and their families succeed in the name of Christ

# Vision

That all children and families achieve greater success in life

# Values

- \* We create a Christ-centered environment where meaning, hope and purpose happen for at risk children and their families.
- \* We reach beyond the status quo by our inherent commitment to quality and continued improvement.
- \* We practice good stewardship to provide a financial return sufficient for present and future needs.
- \* We respect all voices, all cultures, all perspectives.
- \* We treat with dignity all those with whom we interact.
- \* We provide comprehensive therapeutic and educational services.

## Chairman's Report, Foundation Al Bierdeman

Thank you for your prayers and financial gifts. Your partnership with Dakota Boys and Girls Ranch blesses this ministry, and through your involvement at-risk children and their families succeed in the name of Christ.

Over the course of our fiscal year--July 1, 2010 – June 30, 2011, Dakota Boys and Girls Ranch witnessed God's faithfulness as He provided for the ministry and all who are served through our programs.

The Ranch had more than 1,000 first time donors to the ministry. We know that this growth in supporters is due to people like you who are passionate about what we do. You help us to share the story of Dakota Boys and Girls Ranch and invite us to speak to members of your church. In fact, over the last five years we have seen a 44 percent increase in the number of churches that support the ministry. Thirteen percent of that growth came over the last year!

I'd like to take a moment and share some of the highlights from the last fiscal year with you:

- You helped us serve more than 1,100 children and families through Dakota Boys and Girls Ranch and Dakota Family Services
- More than \$200,000 was given toward the remodeling of the Family Living Units in Minot and over \$100,000 was donated to help provide independent living supplies for the children we serve. Both of these areas are vital in meeting the needs of the children and families we serve.
- The Foundation broke ground and began construction on new facilities in south Fargo. This project is especially near and dear to my heart as I have been intimately involved in its development for many years. These facilities will allow us to consolidate the present programs and services we have throughout the Fargo area on a thirty-plus acre site. Not only will this allow us to be more efficient and effective in our present operations, it also positions the ministry for future growth.
- We held a number of special events including, three Pigs 'n a Blanket events (Fargo, Bismarck and Minot) and the second annual NYPUM Fun Run for our minibike program. These events raise funds that help support our programs for children and families.
- Dakota Boys and Girls Ranch hosted servant teams from Indiana, Minnesota and Colorado.

- The Ranch dedicated its new Thrift Store in West Fargo. Our thrift stores in the Fargo region were also voted the best thrift stores in the area for the fourth year in a row.
- Representatives from the Ranch participated in LCMS Youth Gathering in New Orleans, La., the LLL Convention in Omaha, Neb. and the LWML Convention in Peoria, Ill.

Those are but a few of the accomplishments you helped the ministry to achieve.

Of course, as the 2010-2011 year came to a close, our facilities in Minot were impacted by the devastating flood in the region. Minot was above flood stage for 73 days and one of the casualties of the water was our home for males with addiction issues. This facility took on so much water that we had to demolish it. On the main campus five buildings had damage from water and/or sewage. In addition, 61 members of the ministry staff were impacted by the flood. During this tragedy the children were evacuated to our facilities in Fargo and Bismarck and we continued to provide the necessary care, love and support.

As we look ahead to the 2011-2012 fiscal year, and the 2012 celebration of the Ranch's 60th anniversary, your involvement will help us as the ministry:

- Rebuilds after the flood – we thank those of you who have already sent in gifts to assist in this effort
- Completes and dedicates the new school and residential facilities in Fargo.
- Participates in the ELCA Youth Gathering in New Orleans, La., and the LLL Convention.
- Serves even more children and families and helps them to succeed in the name of Christ.

You are an integral part in making all of these things happen, and we cannot express enough our gratitude and appreciation for your prayers and gifts. You help at-risk children and their families both now and eternally. We hope that you will continue to pray for their children, their families, the staff and leadership of Dakota Boys and Girls Ranch. We also hope that you will continue to donate to our annual funding needs, prayerfully consider giving to special projects, and that as you practice stewardship, you will include the ministry in your estate plans. You can learn more about gift planning at [www.dbgrgift.org](http://www.dbgrgift.org).

Blessings to you and your family,

*Al Bierdeman*
